### DANIELSON AND PUTNAM NEWS

### DANIELSON

The following letter, addressed to the head of Danielson's fire department, gives an insight into reasons of the New England Insurance Exchange for lowering Danielson's classification, on fire insurance rates from Class C to D:

A. P. Woodward, Chief of Fire Department, Danielson, Conn.

Dear Sir: I beg to acknowledge receipt of your letter of April 24th in reference to the recent change in classification of Danielson, Conn.

Dear Sir: I best to acknowledge receipt of your letter of April 24th in reference to the rocent change in classification of Danielson, Conn.

As you know, we recently made an inspection of the fire protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be in a defining the protection facilities and found the water system to be an account of the trip and experiment in the protection of the protection facilities and the output of the protection and that isn't saying where. The lucky fisherman will tell you that this young loviathan made the water boil when the attempt was made to start the reel working and that a struggle that lasted over five minutes preceded the landing of the fish that has since made many fishermen

wonder how they do it. Following services held Wednesday af-ternoon at the home of his sister, Mrs. Edgar Smith on Chapel street, Putnam. Rev. Boynton Merrill being the officiating

Services for William Flags, who died at Dayville, were held at the undertaking rooms of L. E. Kenneoy on Furnace street, Rev. Albert Jepson of St. Alban's church officiating. Burial was at Dayville. Friends acted as bearers.

There was ice on swall pends and
